

## TempMate-PDF single use data logger

- Small, light and flat design fits into any packaging
- Factory programming enables quick start anywhere
- Available with 6 days / 15 days and 90 days run time
- Water proof and food safety wrapper
- Auto generating PDF format data report
- Integrated USB connector
- Status LEDs for visual feedback
- According EN12830 S,T,C,D,1

TempMate-PDF, the innovative single-use data logger with its built-in USB connector, is ideal solution for low-cost temperature monitoring of transports. There are three different models. 6 days / 15 days and 90 days

TempMate-PDF loggers will also be supplied in according each customer's specifications. Please contact us for your individual settings.

Due to these pre-programmed specifications, TempMate-PDF loggers are instantly ready-to-use. No further configurations have to be made by the customer, reducing time and costs, as well as preventing incorrect settings.

For downloading the recorded data, simply connect TempMate-PDF directly to the USB port. A PDF report will automatically be generated, covering temperature graph, detailed data list and statistical information. No hardware (cable, interface) or software is required.

Temperature Range:	-30°C to +70°C (-22°F to +158°F)
Accuracy:	±0,5°C (±0,9°F)
Resolution:	0,1°C/°F
Data Memory:	12.960 measurements
Recording Cycle:	6 days to 90 days
Sampling Interval:	1min. 6 days / 2min. 15 days and 10min. at 90 days
Shelf Life:	12 months
Dimensions:	80 mm x 47 mm x 4 mm (L x W x H)
Weight:	10 g
Protection Class:	IP67
System Requirements:	Adobe® Reader
Certifications:	Calibr. Certificate, CE, RoHS, EN12830 S,T,C,D,1
